

**Expert Consensus meeting
March 16, 2 p.m. CET, Online**

Agenda

1. Presentation of the results from the scoping reviews conducted by Karolinska Institutet and Gertner Institute:
 - a. Scoping review on EMTs operations and standards (KI)
 - b. Scoping review on the current EU and Neighbourhood countries disaster risk profile (GERNETR)

2. Guided discussion around three main questions:
 - a. According to the results presented, which are the two most likely scenarios in which EMTs will be involved during their response in the next future?*
 - b. How many exercises (no more than 3) we should add to the current training package?*
 - c. Which do you think should be the content of these exercises?*

3. Conclusions and way forward
